

Getting to Bolara 60

You can find Bolara 60 by searching for it on Google Maps. Do not trust other satnav directions though, especially if based on our postcode. Wherever you're coming from, this is the last stage.

The last bit

Near the “Ponte Porton” roundabout, on the road to/from Buje, there's a turning marked Grožnjan/Grisignana, with a “no buses/caravans” sign. Take this, then immediately turn right at the sign to Bolara, staying on an asphalt road (not the gravel road going straight on).

Follow this road for about a mile, and you come to our neighbours' farm (please go slowly! there are often cats, dogs, kids etc around); Bolara 60 is immediately after the farm on your right. Park here on the right, under the bamboo shelter. If this parking area is full continue another 20 yards or so straight along the road (which immediately becomes a gravel road), and park in the space on the right hand side of the road. Best not to drive down our steep gravel drive, because your hire car probably won't get back up.
